## Education

---

### · Bachelor of Technology in Computer Science and Engineering

Gandhi Institute of Engineering and Technology, Gunupur

2022-26

CGPA: 8.64

## Personal Projects

---

### · Identity & Access Management Platform

Enterprise IAM System with MFA & Conditional Access

- Built an enterprise IAM platform implementing OAuth2, OIDC, SAML, RBAC, MFA, conditional access, and secure session management.
- Designed a custom authentication UI with comprehensive audit logging and policy-based access control suitable for large-scale enterprise systems.
- Technology Used: Java (Spring Boot), Identity & Access Management (OAuth2, OIDC, Security), WSO2IS.

### · Amadeus Air Port Cloud Security

Client Project – Aviation Domain

- Designed and implemented **custom authentication and user flows in Key cloak**, including **attribute-based Multi-Factor Authentication (MFA)** and **advanced password policies** to strengthen identity security and access governance.
- Built and customized **UI components and identity workflows** based on client requirements, integrating secure authentication mechanisms within the application.
- Deployed and managed the solution across **three production environments**, implementing **Nginx reverse proxy, load balancing, and Docker-based containerization** to ensure high availability and scalable infrastructure.
- **Technologies:** Key cloak, Docker, Nginx, HTML, CSS, JavaScript.

### · SailPoint – IAM Internal POC

Internal Proof of Concept (Internship Project)

- Integrated **Active Directory and multiple enterprise applications** with **SailPoint IdentityIQ**, performing **identity aggregation and correlation** from connected systems into the IGA platform.
- Implemented core **Identity Governance workflows** including **Joiner–Mover–Leaver (JML) automation**, **On-Demand Access Requests**, and **Access Certification Campaigns** to improve identity lifecycle management and access governance.
- Designed an identity architecture where **Zoho acted as the Source of Truth**, SailPoint handled **identity governance**, and **WSO2 managed authentication and access control**.
- Technology Used: Active Directory, SailPoint(IGA), WSO2(IAM), ZOHOSource Of Truth) etc.

## Experience

---

### · IAM Intern

Dec 25 - Present

Centrox Solutions

Offline

- Worked on Identity & Access Management concepts including authentication, authorization, and secure access workflows.
- Gained hands-on experience with IGA tools, policies, and access controls while supporting secure cloud-based applications.

### · Full Stack Development Trainer

May 25 - July 25

Sentinetware Tech Solutions PVT Ltd.

Online

- Trained and mentored 200+ students in full-stack development fundamentals over a two-month program.
- Delivered hands-on sessions covering application development concepts along with basic security awareness.

## Technical SKILLS and Interests

---

**Languages:** C/C++, Python, JavaScript, Java

**Libraries:** C++ STL, Python Libraries

**Web Dev Tools:** Nodejs, VS code, Git, GitHub

**Frameworks:** React.js, TypeScript, Tailwind CSS

**Cloud/Databases:** MongoDB, Firebase, Relational Database (MySQL), PostgreSQL, MS SQL , AD

**Relevant Coursework:** Data Structures & Algorithms, Operating Systems, Object Oriented Programming, Database Management System, Software Engineering.

**Areas of Interest:** Web Design and Development, Cloud Security,IAM,IGA

**Soft Skills:** Problem Solving, Self-learning, Presentation, Adaptability

## Achievements

---

- GATE CS 2025 – Scored 47 marks, securing an AIR 5200 among 1.5 lakh+ candidates.
- Grabbed the position in the top 50 students in the Academic Performance.
- Worked in a team and delivered a project with in deadline.
